Dear Mr. Block,

It is our pleasure to write a letter of support for One Innocent Life's mission to raise awareness of fire safety in on-campus housing and off-campus housing to both college students and their parents.

The Westport Uniformed Firefighters Charitable Foundation fully recognizes and supports the invaluable need to raise awareness about fire safety, education and prevention.

We look forward to supporting and assisting with the efforts of One Innocent Life as you seek external funding to support a program designed to raise the awareness of students and parents of fire safety in campus housing.

Any programs that can help our students make better decisions about the dangers of fire and its consequences will benefit everyone including parents, students, colleges, and the public at large.

Sincerely,
